Soft Skill

Collaborates effectively with
colleagues and has a strong ability
to learn new skills independently.

Phumin Suksa-ard

Software Developer

I am a goal-oriented professional software developer well-versed in software application, algorithms, development techniques and data structures.

Experience

Extend IT Resource(SCB) 2024 - current Full-Stack Develop

- Developed the WebView-based front-end for the bank account onboarding application across both iOS platforms by next.js and Angular 1, ensuring accuracy, stability, and seamless user experience.
- Managed Jira tasks including new feature development, bug fixing, code refactoring, and system performance optimization.
- Improved rendering performance by eliminating redundant rendering cycles and enhancing the front-end architecture for faster load times and better responsiveness.
- Collaborated closely with Backend, QA, and Product teams to deliver features aligned with business requirements and technical standards.

Koder3 2021 - 2024 Front-end Develop

Collaborated with the team to enhance the user interface (UI), refine forms, and integrate APIs for the front-end of an online police reporting CRUD website developed using React.js and MUI.

DTGO 2022 - 2024 Full-Stack Develop

- Developed a real-time shuttle bus tracking web application using React.js (front-end) and FastAPI (back-end) with real-time GPS tracking, bus schedule display and CRUD.
- Developed a mobile-optimized web application for bus drivers to select routes between True 101 and DTGO campus, and CRUD utilizing React.js (front-end) and FastAPI (back-end).
- Developed website and maintained an internal company awards announcement API and using Fast API.
- Developed a FastAPI for DTGO's building map website, enabling room search and detailed information display.

TRUE 2021 - 2022 Front-end Develop

- Assisted the team in updating and enhancing the iservice web view website, utilizing React.js for front-end development.
- Developed and deployed a data analytics solution leveraging GTM and GA4 for the iservice website.
- Contributed to the project structure design of the iService Inter SIM website utilizing Next.js.
- Develop HTML email content for SMTP email communication on the iService Inter SIM platform.

PRT(PNellika) 2021 - 2022 Full-Stack Develop

- Developed a Nest.js-based API for AIS's backend CRUD website that enables adding credit to individual mobile phone numbers by sending XML data to AIS's main server and performing SAML authentication.
- Developed an IMEI checking website and CRUD using Next.js (front-end) and Nest.js (back-end).

Techtony 2020 - 2021 Full-Stack Develop

- Developed a company website using Node.js, Express, and EJS.
- Developed a high-converting sales page for an air purifier using Next.js.
- Maintained and enhanced the Ora Thong Savings System, a React.js (front-end) and Node.js + Express (back-end) application.

IBusiness 2020 Front-end Develop

Developed a mobile application for Paolo Hospital using React Native.

Get tech NSTDA 2016-2019 Full-Stack Develop

- Assisted teammates in developing a conveyor belt mango sorting machine using image processing and Raspberry Pi + PLC Shield, implemented with Python.
- Designed and implemented a humidity control system for a mushroom farm using NodeMCU and C++. The system's data was then integrated into a PHP + jQuery website via API for real-time monitoring and visualization.
- Designed and implemented a weight-based pneumatic control system for a noodle press machine using Raspberry Pi, PLC Shield, Firebase, and an Android application.

Skill

Computer Language	Data base	Front-end
C#	Mysql	Android Studio
Java	Postgresql	React Native
PHP	Mssql	jquery
Python	Mongodb	React.js
Javascript	Firebase	Next.js
Typescript	Sqlite	EJS
Golang (Learning)		
C++		
React/Next Library	Protocol	Back-end
Redux	RESTful API	Laravel
Mobx	SOAP	Node.js + express
Zustand	MQTT	Nest.js
Mui	GraphQL	Fastapi
Ant design	Socket.IO	
Tailwind css		
Sass		
Task & Version Control	Unit test	DevOps
Jira	E2E	Docker
Click up	Cypress	CI/CD (Learning)
Github		Jenkins (Learning)
Gitlab		Cloudflare
